

Foresteel Industries Inc.

CUSTOM METAL FABRICATION

- Heat Exchangers
- Pressure Vessels
- Reactors
- Towers & Columns

Company profile

Foresteel Industries Inc.

Technical Expertise
Timely Delivery
Competitive Pricing

For more than 50 years, Foresteel has built its reputation for excellence in the field of custom metal fabrication. Today, it continues this tradition of meeting its customers' highest quality standards with the support of its parent company, industrial machinery builder, Lefebvre Frères Ltd.

Foresteel offers a wide range of custom made metal products for the following industries; chemical, petrochemical and refining, pulp and paper, energy and non-ferrous (aluminum, magnesium, copper). Our products are delivered throughout the world.

*Conveniently located in Montreal
(Canada) near the US market !*

Expertise

Highly skilled employees

As a leader in the metal fabrication industry, Foresteel possesses the resources, facilities and expertise to fabricate high quality products, at competitive prices, while meeting stringent delivery requirements. From your original design, to engineering and fabrication, our professional team will ensure your requirements are met at all stages of your project.

Technical Expertise
Timely Delivery
Competitive Pricing

- 75, 000 sq. ft. fabrication shop
- Welding equipment for SMAW, GTAW, GMAW, FCAW & SAW
- Oxy-cutting and plasma cutting

Quality

Superior products

Certification:

- Over 200 approved welding procedures for carbon steel, stainless steel (300, 400, duplex), aluminum, nickel, copper nickel and other alloys
- ASME, Section I - Power boilers, Section VIII div. 1 - Pressure vessels
- Canadian Welding Bureau W47.1, W59.1, Steel Division 1
- Canadian Welding Bureau W47.2, W59.2, Aluminum, Division 1
- China Safety Quality License (Exportation of pressure vessels to China)
- CSA Z299.3 (equivalent to ISO 9002), audited by Atomic Energy of Canada
- ASME S & U Stamp
- National Board R Stamp

Non destructive tests:

Radiographic, Ultrasonic, Liquid Penetrant and Magnetic Particles Examination, Positive Material Identification, Hydrostatic, Pneumatic and Helium Leak Testing

Products

Customized solutions

- Pressure vessels
- Reactors

- Towers/columns
- Heat exchangers
